

The NBMA requires all Active Members to possess current qualifications in both Workplace Standard First Aid and Level “C” CPR upon joining the NBMA. This policy outlines the conditions and responsibility for that requirement.

1. All Active Members shall maintain current qualifications in Workplace Standard First Aid and Level C CPR as required by New Brunswick Regulation 2004-130 under the Occupational Health and Safety Act (O.C. 2004-471).
2. Registered Nurses employed in emergency rooms will be exempt from the provisions of this policy.
3. It is the responsibility of Active Members to ensure that their First Aid and CPR qualifications comply with the requirements of paragraph 1. The NBMA will not monitor compliance but Active Members should be aware that they risk severe consequences should they be found not to be in compliance during an investigation of a medical emergency related to their practice of massage therapy.
