The importance of an oral/practical exam.

NBMA prides itself on *“Promoting Excellence in Massage Therapy since 1988.”*

Our objective is to ensure that all of our members have attained the highest skill levels in massage techniques and, in addition, display unquestionable professionalism as they embark on their chosen career.

To achieve this objective, NBMA requires an oral practical exam in keeping with our policies and procedures. We believe this exam validates a student’s skill level and confirms his or her ability to practice massage therapy according to the high standards and code of ethics of this Association.
